**Economics for Everyone:
An Introduction To How The Economy Really Works
(And Doesn't Work)**

**JIM STANFORD
ECONOMIST AND AUTHOR**

Jim Stanford is economist for the Canadian Auto Workers union, and an economics columnist for the Globe and Mail newspaper. He is also the author of *Economics for Everyone* (Pluto Books, 2008), a critical-thinking primer on economics for union members, social activists, and others concerned with challenging the phony mystique and underlying biases of conventional economics. Join Jim for a special two-night introduction to the economics of everyday life. You'll equip yourself with the knowledge and the confidence to reject the belt-tightening prescriptions of our current government. After all, as Jim says, "economics is too important to be left to the economists!"
